LinkedIn | GitHub | Portfolio | DagsHub

PROFESSIONAL SUMMARY

Aspiring **AI/ML Engineer** and **Python Full Stack Developer** with hands-on experience in building real-world intelligent systems, web applications, and machine learning solutions. Strong foundation in **Python, HTML, CSS, JavaScript, React, backend development, MySQL, PostgreSQL, MongoDB, and intermediate DSA**. Experienced in developing projects involving **ML model training, deep learning, NLP, LLM API integration, RAG pipelines, Streamlit deployment, ONNX conversion, and end-to-end AI-powered products**. Passionate about building impactful, recruiter-visible, production-oriented solutions.

EDUCATION

PBR Visvodaya Institute of Technology and Science	2024 – 2028
<i>B.Tech in Computer Science and Engineering (Artificial Intelligence)</i>	<i>Current CGPA: 8.5 / 10 (up to 3rd Semester)</i>
IIT Patna iHub	2025 – 2026
<i>3-Semester Program / Certification in Artificial Intelligence and Machine Learning</i>	<i>Final offline semester result / CGPA awaited</i>
Narayana Junior College	Completed
<i>Intermediate (+1 and +2) – MPC</i>	
Sri Chaitanya School	Completed
<i>Class X</i>	<i>504 / 600</i>

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL
Web Development: HTML, CSS, JavaScript, React, Python Backend Development
Databases: MySQL, PostgreSQL, MongoDB (NoSQL)
AI / ML: Machine Learning, Deep Learning, Neural Networks, NLP, Model Training, Model Evaluation, Feature Engineering
Deployment / Tools: Streamlit, ONNX, PKL Model Deployment, DagsHub, Git, GitHub
AI Engineering: LLM API Calling, Retrieval-Augmented Generation (RAG), AI Chatbot Development, Inference Pipeline Design
Core CS: Data Structures and Algorithms (Intermediate), Problem Solving

PROJECTS

Resolvit AI | resolvit-ai.online

- Developed an advanced AI-powered platform focused on intelligent problem solving and real-world digital assistance.
- Built using Python-backed architecture with full-stack integration and product-oriented design.
- Implemented AI-driven workflows and interactive user-facing experience to demonstrate practical AI application development.
- This project reflects strong capability in combining software engineering with applied AI for impactful solutions.

Prometheus AI Chatbot | prometheuslikiths-ai.online

- Designed and developed an AI chatbot system integrating LLM API calling and intelligent response generation.
- Worked on RAG-based concepts to improve contextual quality and reduce unnecessary API request overhead.
- Focused on practical AI engineering, conversational workflow design, and efficient inference handling.

Loan Credit Score Risk Prediction System | Project Drive

- Built a machine learning project for loan / credit risk prediction using trained predictive models.
- Worked with model export pipelines including **.pkl** deployment and **.onnx** conversion for cross-language usability.
- Applied ML workflow concepts such as preprocessing, model training, evaluation, serialization, and deployment.

Applied ML / DL / NLP Experiments | DagsHub Profile

- Trained multiple machine learning models across practical datasets and experimentation workflows.
- Worked on deep learning, neural network, and natural language processing based implementations.
- Explored production-style model usage, experiment tracking visibility, and deployment-oriented thinking.

PROFILE HIGHLIGHTS

- Hands-on experience in developing AI, ML, and full stack projects from idea to working prototype.
- Built systems involving model training, chatbot development, deployment pipelines, and intelligent web interfaces.
- Comfortable with bridging software engineering and AI product development for practical real-world use cases.
- Strong interest in scalable AI products, intelligent automation, and end-to-end solution building.

ACADEMIC AND TECHNICAL STRENGTHS

- Maintaining **8.5 CGPA** in B.Tech up to 3rd semester.
- Pursuing specialized AI/ML learning through **IIT Patna iHub**.
- Built multiple projects across **machine learning, deep learning, NLP, LLMs, RAG, and full stack development**.
- Good practical understanding of model development, deployment formats, and AI application architecture.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Place: India
